

## Geotechnical Seminar

# Recent Developments in Ground Modification

Jeff Hill, P.E.  
St. Louis Area Manager  
Hayward Baker, Inc.

## Abstract.

Technical concepts and brief case histories will be presented to describe recent developments in ground modification. Methods that will be discussed include: micropile foundation systems, vibro-compaction and vibro-replacement systems, and various grouting applications for soil improvement.

## When and Where.

Friday, March 9, 10:30 AM  
CE/TTI, Room 217
